

SHAKTI PROTECTION BELLOWS

- PROTECTION BELLOWS TO PROTECT YOUR PISTON FROM DUSTING
- RUBBERISED FABRIC TO REPLACE COSTLIER LEATHER BELLOWS
- RUBBER ALLOWS GOOD RESISTANT TO CHEMICAL & ATMOSPHERE
- STITCHED BELLOWS TO YOUR CUSTOM SIZE OF ANY HEIGHT

SHAKTI BELLOWS are designed to get highest flexibility which is made of rubberised fabric to get higher weather resistance as well as chemical resistance. These bellows are best solution for replacing costlier leather bellows. They are designed to protect your piston 100% from dusting. Protection bellows are available for maximum piston size 800 mm & length upto 25 feet free stroke of of piston.

The construction of these bellows includes fabric and elastomer, which is formed from the desired elastomer mainly from NEOPRENE to get better ozone resistance as well as chemical resistance. Also selected polymers can provide required properties. These bellows are stitched individually to get better strength and to get maximum life of the same.
